

Bernice Mmabogosi Phele

theabangphele50@gmail.com

Bernice Mmabogosi Phele well known as 'Thabang Bee Phele' is born and bred in a rural village in the North West Province in the Republic of South Africa, As a young ordained Pastor She has dedicated her life to serving God and humanity. She is Local a Development Economist, she worked as portfolio manager at ABSA AMEF, beginner's class teacher at church and in communities at large, a Local Economic Development Coordinator, spiritual scholar and transformation leader. She has earned a distinguished reputation as a Radio Motivational speaker, speaking change and hope to her community and the entire district.

She completed her studies in Theology and Ministry for her own spiritual development and of course to impart knowledge to Women in Ministry worldwide; she was awarded a scholarship during Healing Jesus Campaign from Heward Mills Ministries to study with Anagkazo Bible Institution in Ghana of which she didn't go due to her late grandmother's illness, who passed on later that year however she studied with a nearby University to complete her study in Christian Education. A plan of her life as per revelation is to travel worldwide partnering with spiritual, social, government and civil leaders to equip girl-child to discover purpose, maximize potential, raise a stable society and leave a positive footprint through their lives. She wishes to initiate strategic interdisciplinary forums, as well as host women and a boy-child conferences, seminars, and summits designed to develop practical solutions towards the healing of our world from its deeply rooted social and spiritual diseases.

She is Founder and Director of the organization namely Oreokame Women Empowerment Social and Spiritual Relief Outreach. The organizations were formed from the Story of Hagar and Ishmael together with Jeremiah 09:17-22, which is a vision that I had since I was 9years old. Bernice combines her wealth of leadership expertise with spiritual understanding life-transforming messages that empower and instigate. Seasoned with humor, compassion, revelatory insight, and personal candor. She open minds and touch women hearts with biblical-based principle of inner healing and personal empowerment.

Looking at her education background in Economics, breaking barriers to entry into the government, Solid Waste Management and Recycling qualifications and Currently studying towards a qualification on Local Economic Development qualification which is actually the physical part of what she is called for and her completed study in Theology and Ministry, Bernice translates hard-hitting spiritual insights into everyday language that empower individuals to transform their lives.

The message of the Kingdom of God it's a message that saved my life. The principles that I teach are principles that I use every day of my life not only the principle concerning prayer and spiritual warfare or healing, but the principles concerning how God speaks to you in concepts and ideas and how you always just one decision away from living the life of your dreams. I am a survivor of Spiritual, Emotional, Physical abuse and I will not allow that to happen to any girl or woman. I believe God allowed such to happen to me

so that I can be a sharpened instrument and a humble shepherd, looking after His flocks with a personal experience.

My daily work is to raise a responsible society of young Women, to create a conducive environment for a young girl to an elderly woman by partnering with government and churches to unleash the potential that lurks within the womb of our women. To ensure that justice is served for all women who have been abused by men and women abusing vulnerable and voiceless women. By God's grace we know we will conquer because whatever is impossible with man is highly possible with God.

Purpose

To help a girl-child their purpose at an early age.

To avoid and reduce teenage pregnancy experienced by a girl-child.

To advocate for a girl-child and women who encountered abuse and to prevent abuse before it take course by educating children at high school level.

To rebuild and recycle a torn woman into a purposeful, courageous, confident and leading woman.

To raise the living standards and status of women through raising self-awareness, discovering their purpose, education and training,

Help women to find their spiritual identity and their God ordained purpose here on earth.

We are in support and advocating for women in ministry as they are the ones who encounter spiritual, emotional and mental abuse without even noticing.

We create a stable society in supporting the girl-child to have a well deserving environment for them to unleash the potential that lurks within them.

We advocate for women in marriage, abused young women those who are victims of rape and other forms of abuse as most of us in the organization survived the doom that abuse can bring to women and to create a healthy marriage.

Women in churches are exposed to abuse in all forms they bottle-up and die a spiritual death so we have a women in ministry platform to cater for them.

Vision

As a worldwide women outreach, we are envisioned to create a stable society that protects and promotes human rights, gender equality and beneficial environment across all race.

Mission

To create a stable environment for women cutting across different cultures worldwide.

To ensure that women's voice, their rights economical, spiritual and social and environmental justice and sustainable development.

Background

Women are powerful beings, built-designed by God to be helpers according to Genesis 2:18. As the Pastor I have realized the oppression that the devil put on women's minds on daily basis. He makes women believe that their voiceless by putting in use the principle that makes the silent. He preaches to them that they are

not supposed to speak, they are not supposed to raise their concerns by speaking them out. I have therefore took it upon my shoulders and other women who survived different kinds of abuse especially Spiritual, mental and emotional abuse since these are forms of abuse that cuts deeper into a person soul without leaving a visible mark.

The issue of war between the devil and women started long ago and since the devil is illegal in the earth realm he uses any person close to any woman to accomplish his message. He hides himself in other people, he kills what the Lord has bestowed in women, he makes human being to tear others apart and he remains hidden. Therefore we look deeply into the matter that individual might be suffering as a results of what happens beyond what physical eye can see through prayer.

Women have a high calling therefore it is up to us as women worldwide to take care of each other. To hold each other together in different positions that we find ourselves in. We look out for each other irrespective of culture, race and titles or age. I have come across bruising stories from Pastors wives and how they are not supposed to speak to anyone about their encounter as a result we formed also a forum called Women in Ministry, were female pastors and pastors wives build each other economically, spiritually, mentally, emotionally and physically. We have realized how they live glamorously but once the husband passes on the woman and children are chased out of church with nothing to live on.

We saw how young girls their reputation has tarnished by their brothers, uncles even their boyfriends and families force them to keep quite in order to avoid tearing the family apart. This is the most common and it keeps a victim dead while still walking on earth.

On the other hand, we have rare cases of young boys being abused verbally, emotionally and mentally and they are given an adage that a 'man never cries' so we are also having one man within the organization who lives with disability, who has a son. His son went through mishandling from his mother at an early age. So he helps our young boys with regards to that, because on the other hand we have young women who grows strong and equipped yet boys are not educated and they feel neglected this results in boys killing their partners from secondary to tertiary education.

Conclusion

The organization intends on putting on board all women with all ages to in order to know how to support out there having everybody on board who can relate to people with regard to their ages, who can understand their cultures and the stages of life there in. We have a program that says teach a young girl how to fish other than putting a fish on their table'. Here we introduce a sense of independency, business skills, and entrepreneurship for women to build themselves and be able to provide for themselves.

We have elderly women who teach young women to stay honest, loyal trustworthy and to serve in their marriages. This are elderly people who can intervene when the man start to abuse the word submissive" and when they start to abuse their powers vested in them as the 'head' of the family. Here we want to create a healthy marriages and the platform were women can use their talents in their homes and to be free to live because they are the ones who can give birth to a man's vision. And they are the one who are actually powerful yet they lead from behind.

A woman is BUILT to HELP, and she is born EQUIPED to do the work. She naturally carries breakthroughs and miracles, world solutions within her womb. She has a seed that is planted within her to turn everything she touches into gold and for that I stand to fight and to advocate for her, to create a conducive environment so that she can give birth to a stable and healthy society. She is made equal to a man with different functions and responsibilities and this is found in Scripture so principles and policies needs to be built round about nothing else but the truth. A woman cannot be buried she can only be planted. We are believing God to

extend His hand in growing the organization so that it can give birth to other many initiative and serve globally as a mother body.
